

Environmental Technician

Livengood Gold Project - Alaska,

Date Posted: January 29, 2012

Closing Date: March 15, 2012

Tower Hill Mines, Inc. (THM) a subsidiary of International Tower Hill Mines Ltd. (ITH), presently controls a mineral exploration project in Alaska referred to as the Livengood Gold Project located 70 miles north of Fairbanks, Alaska. Information about THM and its parent company can be found at www.ithmines.com.

The incumbent is part of a team that oversees environmental site stewardship and coordinates environmental investigations and permitting efforts required to advance the Livengood Gold Project toward a production decision.

Successful candidates will be able to:

- Conduct all work activities safely.
- Work in a team setting as well as independently.
- Communicate effectively with coworkers.
- Lift up to 45 pounds and conduct work outdoors in all weather conditions.
- Operate an ATV in remote locations (must meet training requirements).
- Use a variety of hand and power tools; and maintain them in good repair.
- Collect and maintain quality written notes and inspection forms.
- Complete assigned tasks in a timely manner.
- Take an active site stewardship role for camp and exploration activities.

Only candidates with current U.S. residency or eligibility to work in the U.S. will be considered. Alaska residency will be a job requirement.

The position will be based at the Livengood Gold Project with occasional travel to Fairbanks. Previous experience or background in natural resources, science, or engineering is preferred.

Qualified candidates are requested to forward a cover letter and resume to hr@ithmines.com. (Please include "Environmental Technician" in the subject line) before March 15, 2012.
